

Who

The lone heart of the world walking
collecting fragments of song
pulling them together into time
just enough for another day

She is the paradigm
she did it by herself when she had to
picking up a student here there
some better than others
knowing with her teacher
it is enough that God and myself know your excellence

He came to understand
if he could do something
that right
twice
the world would be redeemed
knowing if the world
can be redeemed
that's all it takes
the right action
one person maybe two
and if it's one
it's him
